The secret : the power

Author : Rhonda Byrne

This book is about a special power. Without the power, we would not have been born. Without the power, there would not have been a single human being on the planet. Every discovery, invention, and human creation comes from the power. Good health, incredible relationships, good careers, fulfilling lives, money, and everything we have, all come from the power. This power is inside each one of us.

I think this book is very meaningful because I can learn many things in it. I learnt that life is simple. Our life is made up of - positive things and negative things. If we have more negative things than positive things in our lives, we will feel very unhappy and sad. That's why we should be positive to face things in life because it can make us happier.

I also learn that the power to have all the positive and good things in life is love! Love has been talked about and written about by many great thinkers, philosophers, prophets, and leaders since the beginning of time. But many of us have not truly understood their wise words. Even though their teachings were specifically for people in their time, the true message to the world is still the same today -- that LOVE is the greatest power in the universe.

The kind of love that the greatest thinkers and saviors of the world talked about is very different from what most people understand. It is much more than loving your family, friends, and favourite things. It is the positive force of life. It is the cause of everything positive and good.

So I think this book is very meaningful and I hope you will love it!
