Five wishes :

**how answering one simple question
can make your dreams come true**

Author : Gay Hendricks

Before I read this book, I saw the cover page on which there is a simple question: “Can you make your dreams come true?” Then I thought if I could make my dreams come true. And this book can help us to find the power within to change our life. It’s time to make all our wishes come true.

In this book, there are two chapters which I really like. These two chapters are very meaningful and it is really good for us to think what the message the author wants to get across to us.

The first chapter is “My fourth wishes: Feeling God”. It is about the author’s feeling of God. And he said “I feel the presence of God all the time, everywhere I go. I know what divinity is and how the universe was created.” I also feel the presence of God everywhere because God protects us all the time and I can feel God is really there. I read a meaningful sentence in this chapter. We and God are one and the same. How can we be the creator and the created at the same time? I think it is worth it to think about it.

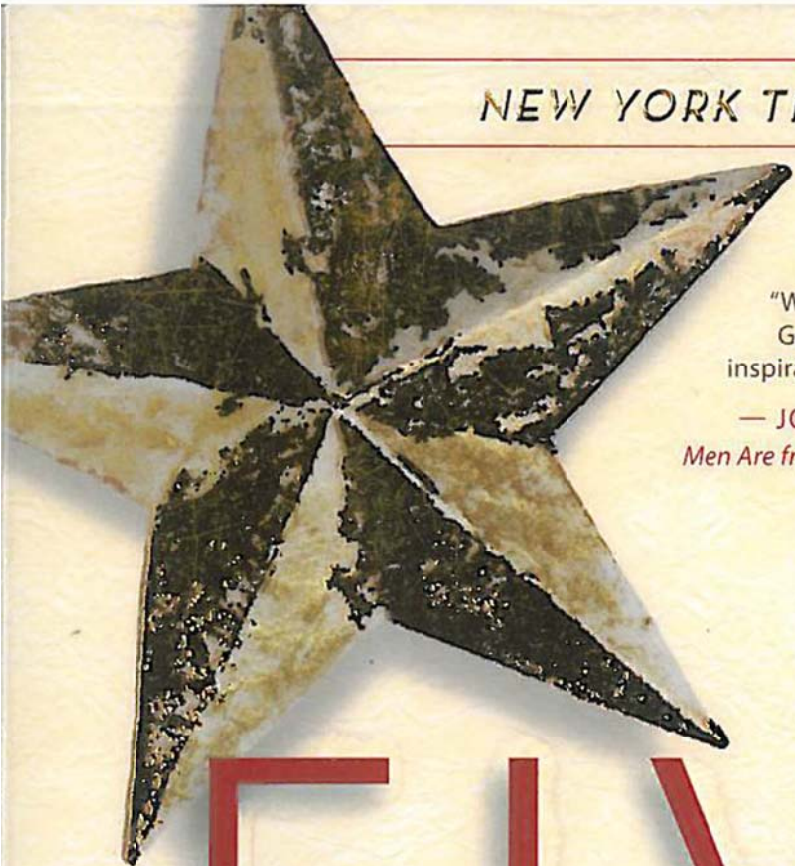

And other chapter is “My fifth wish: Savoring Life”. This chapter is more close to us. The author said “My life was not a total success because I rushed through it. I never stopped to savor the precious moments along the way.” I think no one is a total success in their life. There are bound to be some problems in our life so we may not have time to stop and savor our life. Although I think I do not have any serious problem in my life, I do not have time to savor every moment in my life. I admire the author who said “Now my life is a success because I savor every moment of it along the way.” Do you stop and to savor every precious moment in your life?
