# **Bookmark days**

**Author : Donna Gephart**

This book is called *Bookmark days*. The author of this book is Scot Gardner. There are three main characters in this story. They are Avril, Katie and a handsome boy-Nathaniel. Avril's planet was run by sheep and Katie's planet was run by fashion. Katie always gave Avril some clothes which are fashionable and attractive.

Avril met Nathaniel Carringtons. She was attracted by him. At first, Avril was shy to talk to Nathaniel. However, he was an active person. After some days, they became friends. Avril even introduced him to her cousin, Katie.

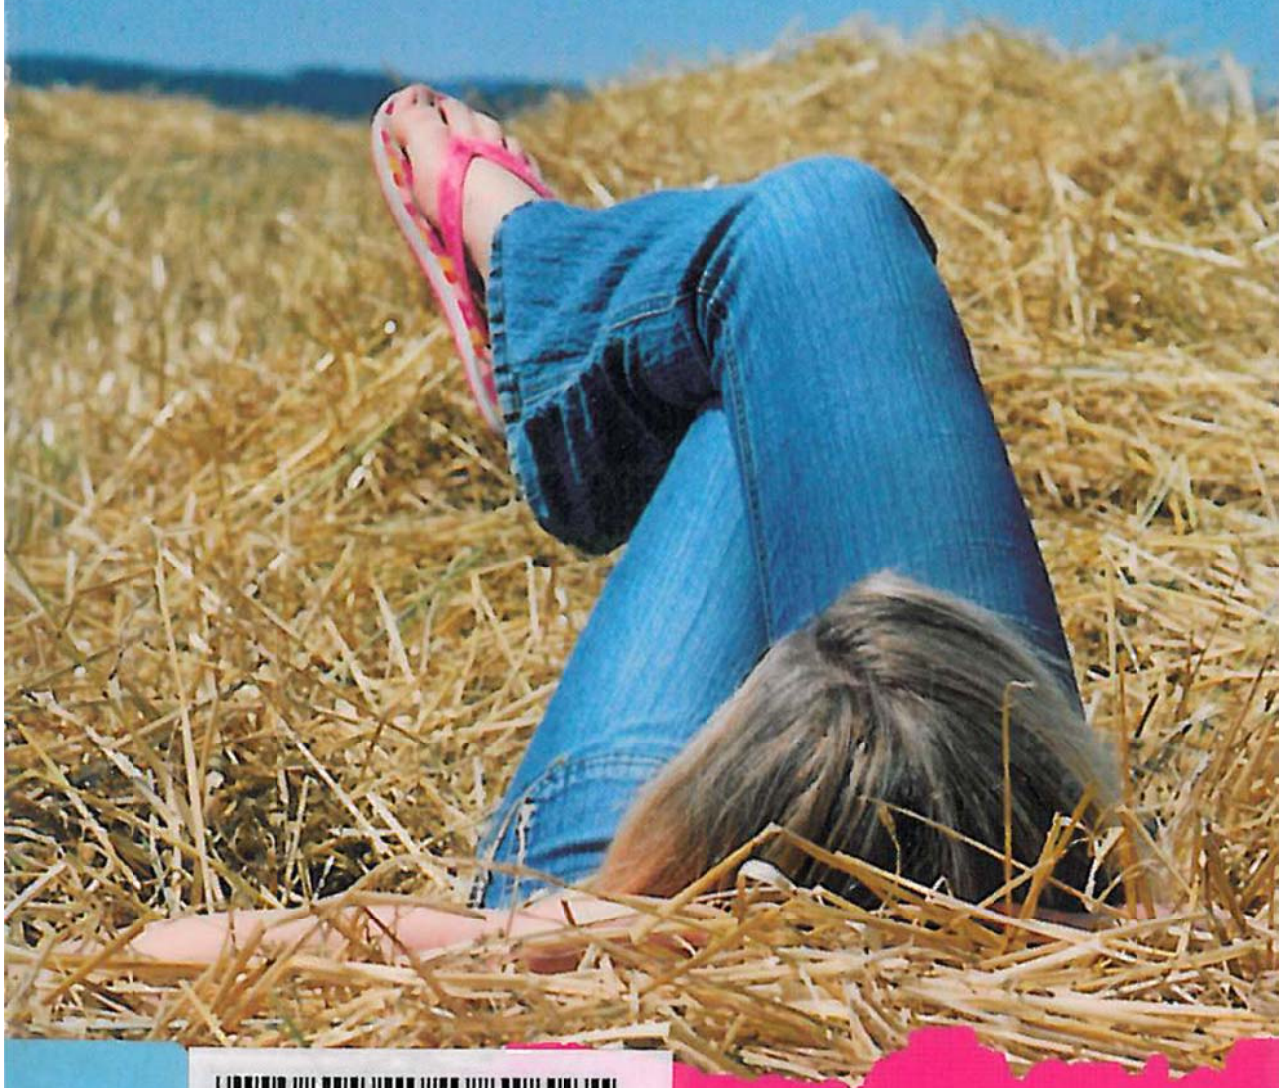

Suddenly, Avril realized that her and Nathaniel Carringtons's family are at war. Avril was confused in their relationship. In this story, Katie was helping Avril. They talked together and shared their own experience with each other. Despite the fact that they were from different planets, their relationship was very close.

This book is quite suitable for senior form students. It is quite romantic and it's about love and friendship. The words are quite difficult which I don't know. I have learnt a lot of English words since I have started reading this book.

Let me talk about what I think about this book. Firstly, the story structure is quite good. The love story is fairly attractive for teenagers. It is because teenagers are highly interested in dating with friends of the opposite sex. During this period, they may have some trouble or problems. Reading this book can help resolve them. I think Katie is a good girl. Avril and she are good friends. They talk a lot and they have a lot of incredible ideas that readers can't imagine. Moreover, Avril is a funny girl. When she is talking with her cousin, Katie, they have a lot of jokes that make me laugh. Their conversations can reflect what the teenagers think. Sometimes, I probably agree with their thoughts. Anyway, one thing that I don't like is that it is not realistic. I don't believe that there are two worlds of planets in the universe.
