

Poems

Preface:

We know that a lot of people may think poem is a really hard thing for them to work on or read. But actually writing or reading poems can also be interesting. We want to make this online poetry book with this idea and to encourage all of you to fall in love with poetry

Sounds of ...	
Sounds of the Night	31
Sounds of Basketball	32
Sounds of Morning	33

My Fear

My Fear
- Dreams -

I'm not afraid, but there's one thing I fear,

Dreaming takes me to where I am scared,

But my memory is not so clear

It feels bad that I've never had a nice dream,

I can just have a nice dream when I am daydreaming,

And I want to see something gleam.

- My Fear -

I'm not afraid, but there's one thing I fear,

Sometimes I'm afraid, sometimes I love,

I'm afraid a few times a year,

I'm never so afraid that I shed a tear.

Have you guessed the above?

It is my mother, also my dear.

BEST MUM

My Fear

- Bees -

I'm not afraid, but there's one thing I fear,

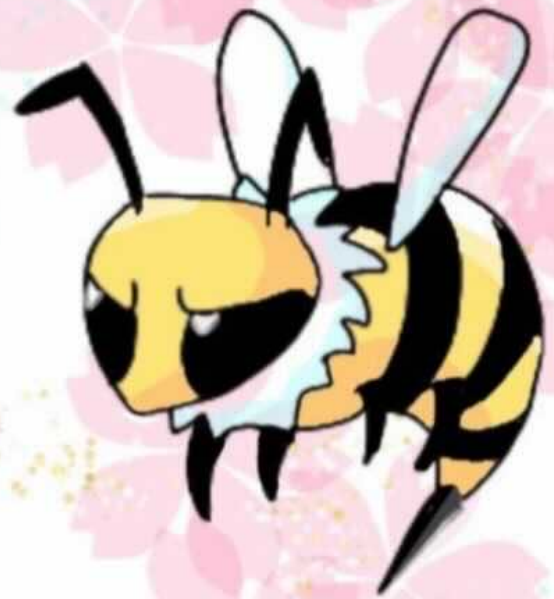

I fear the sound of bees,

Every time that they buzz near,

And make that sound that I can hear,

I want to put them in deep freeze,

As you can see, it's bees I fear

My Fear

- Shadow in the Closet -

I'm not afraid, but there's one thing I fear,

The shadow hidden in the closet,

I really don't want to go near.

Some scary sounds I hear,

I can't sleep at night because of it,

Please don't make me tear.

Things I Love

Dumplings

You have thin and smooth skin,

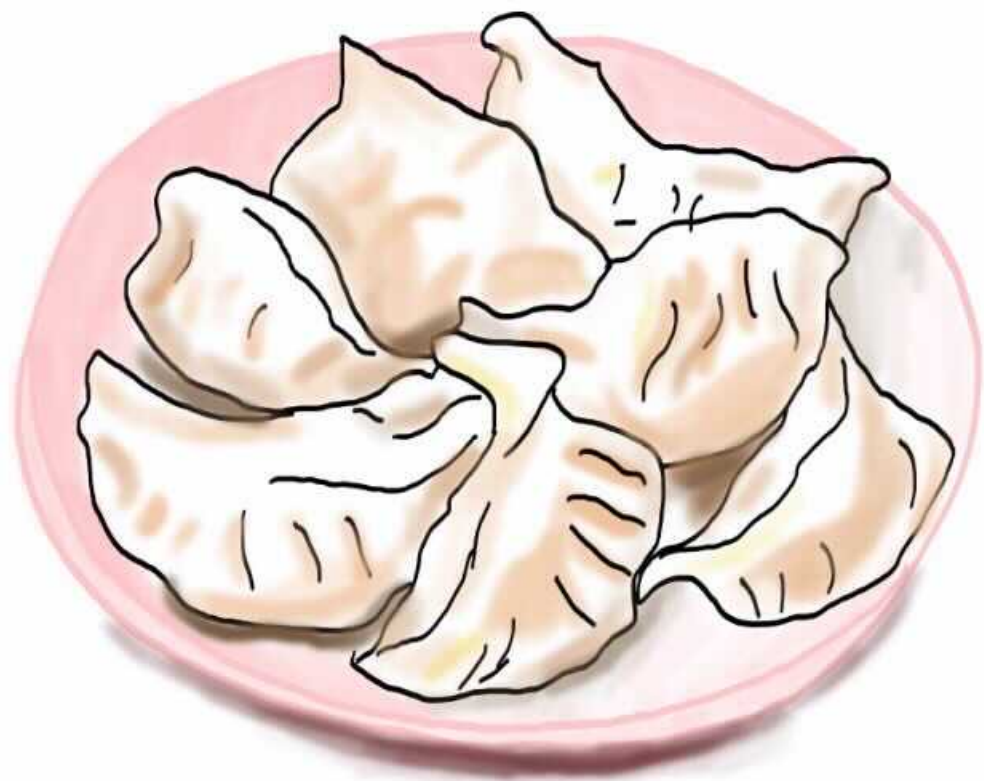

Wrapped around some meat,

And some cabbage therein,

You look so neat.

Oh, my darling,

I call you dumpling.

Japan

My favourite place is Japan,
There, I have many memories,
Moving to Japan is my plan,
Speaking Japanese is one of my worries.
Japan is like my hometown,
Let me make a good dream down.

Parents

My parents caused my birth,
And gave me a lovely home,
That costs them the earth,
Yet they groom me with a familiar comb.
I love my family,
Like a fairy tale story.

Cheese

Cheese, I really love cheese,
It's great when melted on toast,
I think everyone agrees.
And the recipe i love the most,
Is to mix cheese with pasta,
You'll love it ever after.

Dark Chocolate

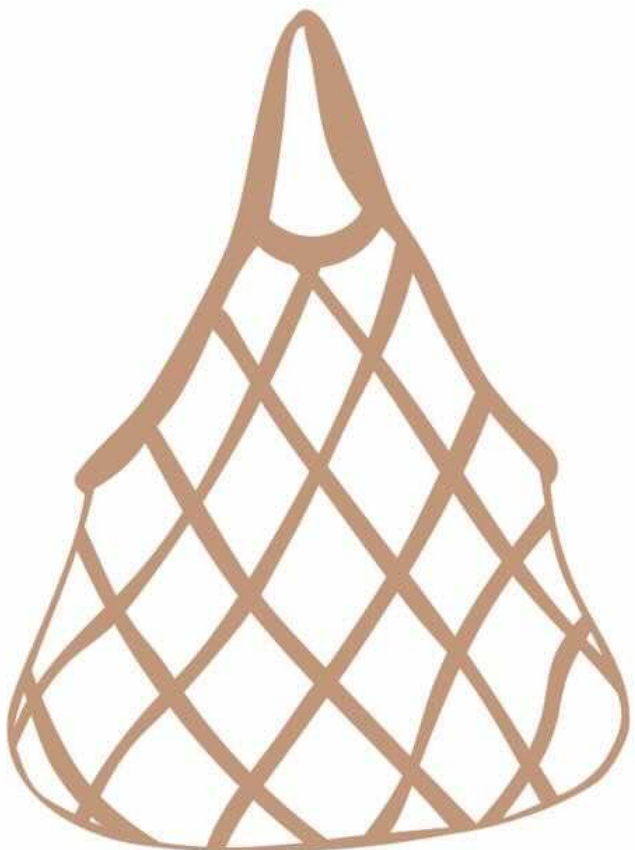

Dark chocolate is the best,
The good taste it has,
Makes me feel blessed,
With the charm of smooth jazz.
Dark chocolate , my love,
The addiction I can't get enough with.

Mealtime

Stephanie

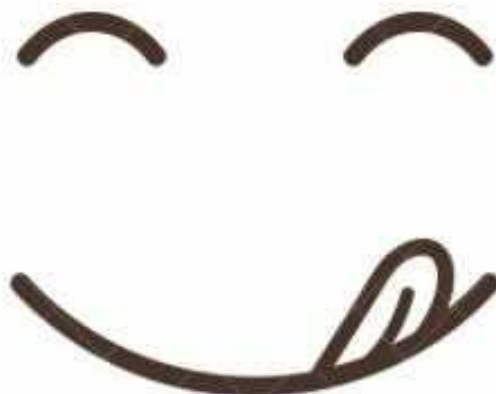

Mother buys a bag of rice,
Eggs and cheese. That looks nice,
Apple and a picnic bag,
Looking at each price tag,
Tippytoe to the icecream store,
Icy creamy slowly pour,
Marching towards my hand,
Enjoy someone buys a pan

Sarah

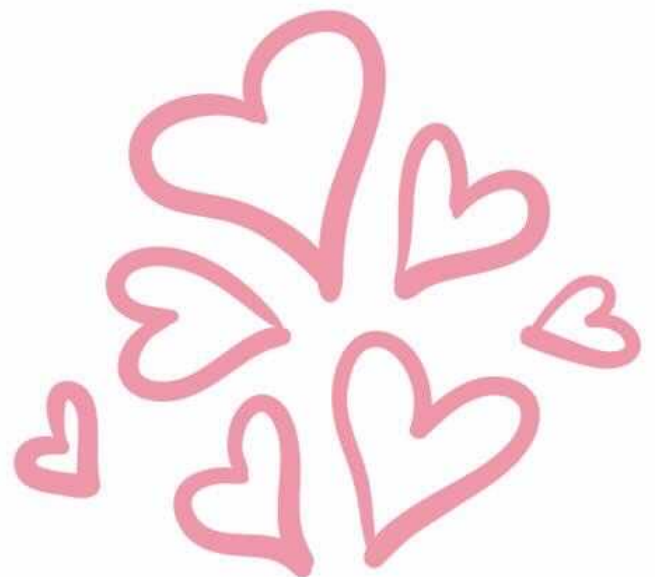

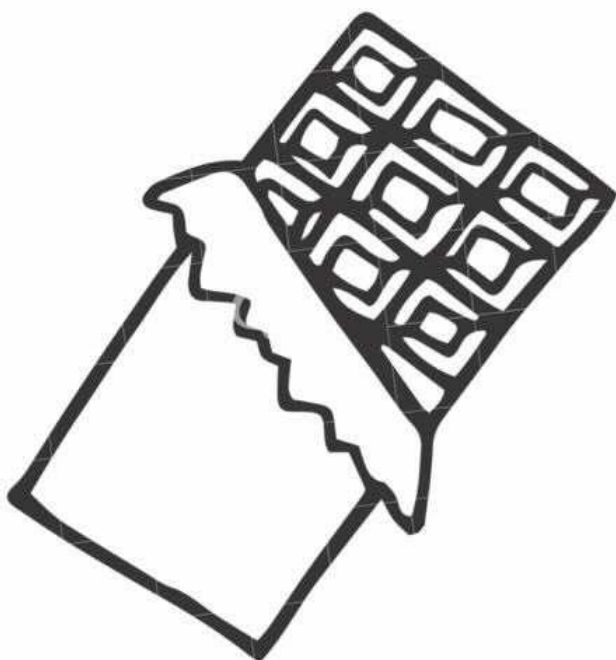

My mood has been always relaxing when I'm having a meal,
Eating with my family is the happiest time I feel
And our communication never ends.
Laughter is also indispensable during the meal.
Television is prohibited, however,
I never feel sad,

Mealtime, the best time to share things with family and friends,
Every day a simple meal makes me glad.

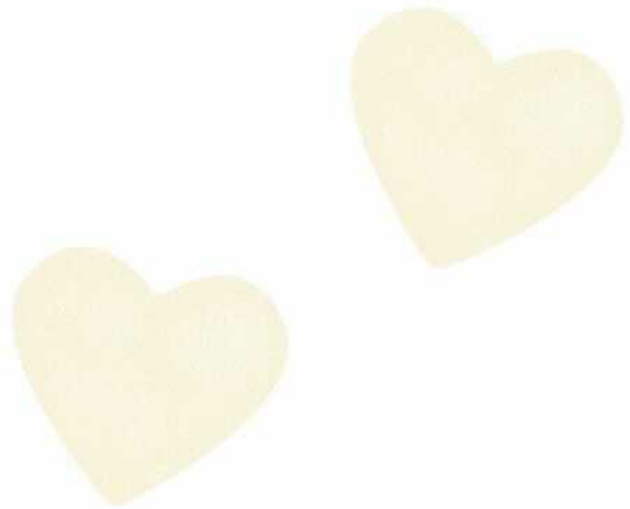

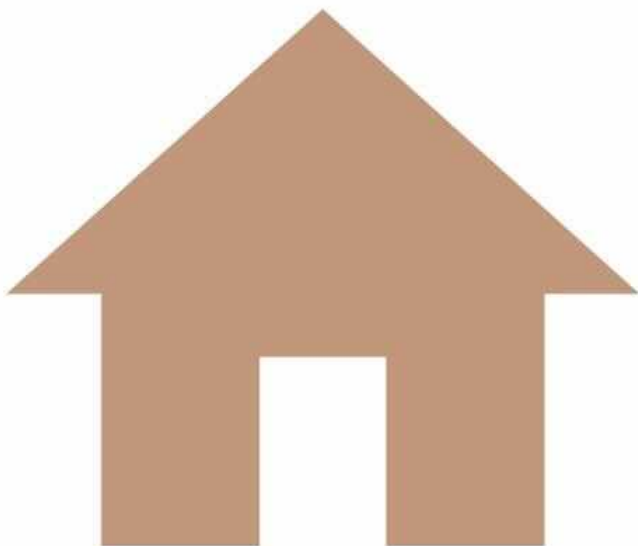

Yumi

My favourite food is chocolate dessert.
Eating the chocolate dessert make me happiness
.Another flavour I don't like to eat.
Laterally I want to eat a new flavour dessert.
This is tiramisu,one of my favourite desserts.
I really enjoy it when I'm savouring.
My favourite flavour throughout chocolate.
Eating all chocolate desserts is my dream.

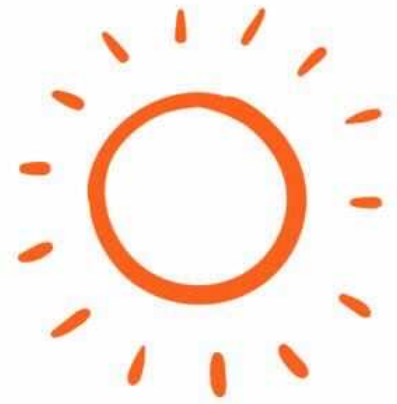

Lily

Multi food on the tablecloth,
Each person in front of broth,
All are my lovely family members
Lots of memories I won't disremember,
Till my life comes to an end
I still have a nice family that is extend,
Mealtime, mealtime is a good time for us,
Each one of us is not superfluous.

Louie

Morning is coming
Eating alarm is ringing
'Apple juice is ready,'
'Louie! First make your room tidy!'

Time to chat with my family,
I love this moment especially,
Mum and Dad are really sweet,
Even I'm in front of them with a meat.

Overcoming Adversity through Positivity

Overcoming Adversity through Positivity

2020 will pass very soon,
It has been a difficult year,
Covid-19, it hasn't stopped,
Tell me your difficulty here.

This pandemic affects us a lot,
we must be extra careful,
We need to always wear a mask,
Stop the pandemic, and we are successful.

When Covid-19 is stopped forever,
No need for masks, no, never.

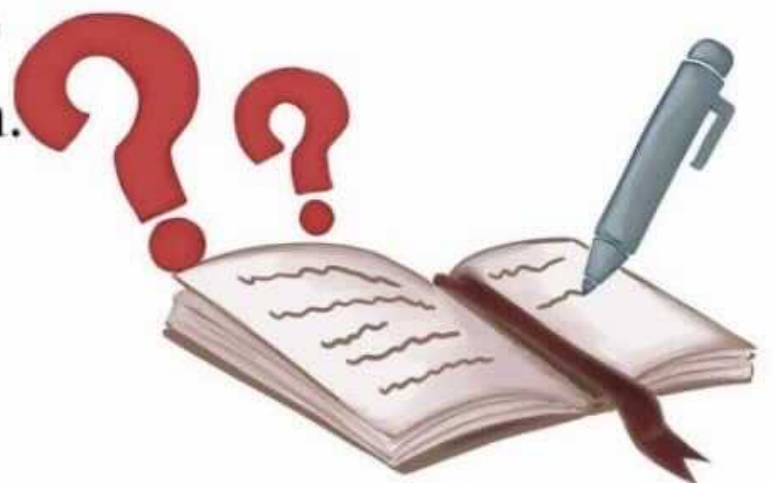

Overcoming Adversity through Positivity

This year was tough, I know,
Studying at home was hard,
Things around me distracted me,
Despite taking notes on a card,

I tried to focus myself in classes,
I moved many things away from me,
Working harder than usual,
To ensure I get the key.

Study techniques we earn,
Together we live and learn.

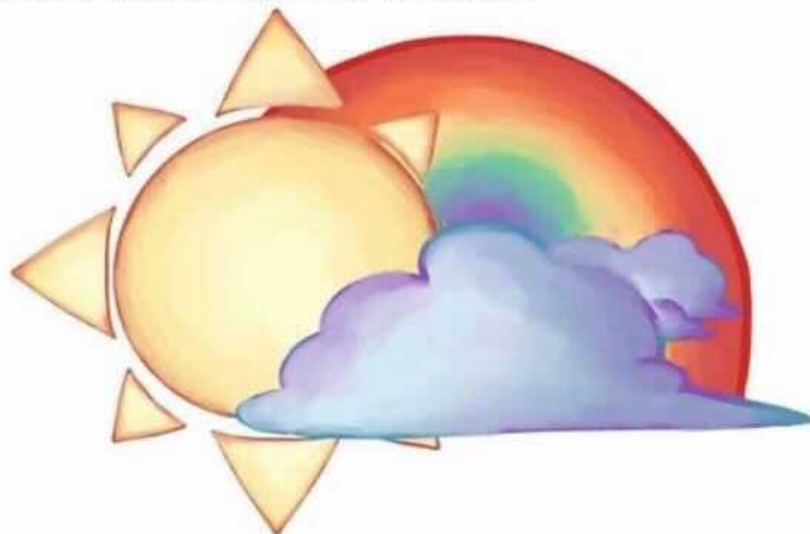

Overcoming Adversity through Positivity

When you're in a negative state, like carrying a heavy weight,
Like walking in a foggy, big dark, maze,
To make your brow relax and get you out of the crowd,
Let's check out some amazing methods and wonderful ways.

First , relax your body,
Make some tea and sit down in peace,
Close your eyes and you will see,
How your stress will be released.

Now take a deep breath and open your eyes,
Is now more improvise without some unwise?

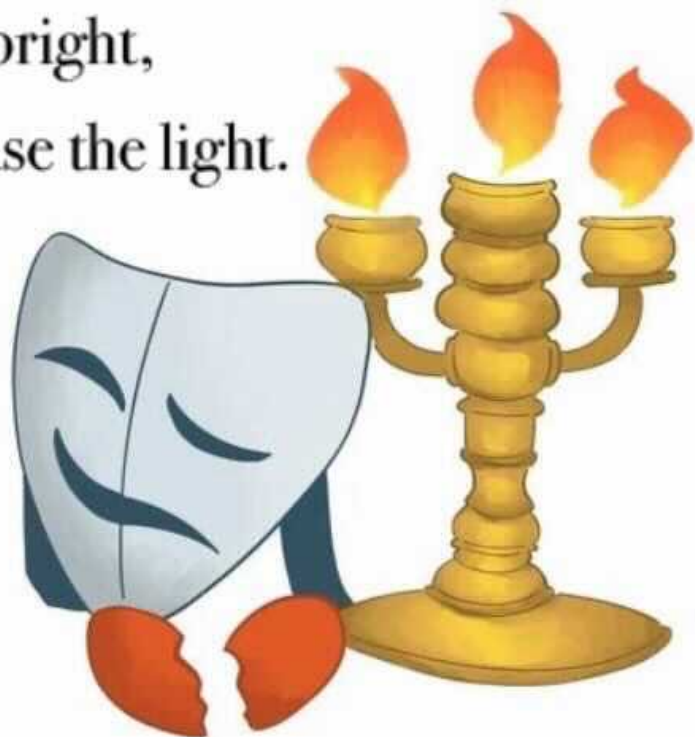

Overcoming Adversity through Positivity

It was demanding, Oh yes, it was hard,
No one understands your heart,
Maybe someone you love betrays you,
You feel your future is dark.

But never underestimate yourself,
Stand firm and fight,
Think positive,
And you will be alright

I know the future is bright,
Together we can chase the light.

Nonsense

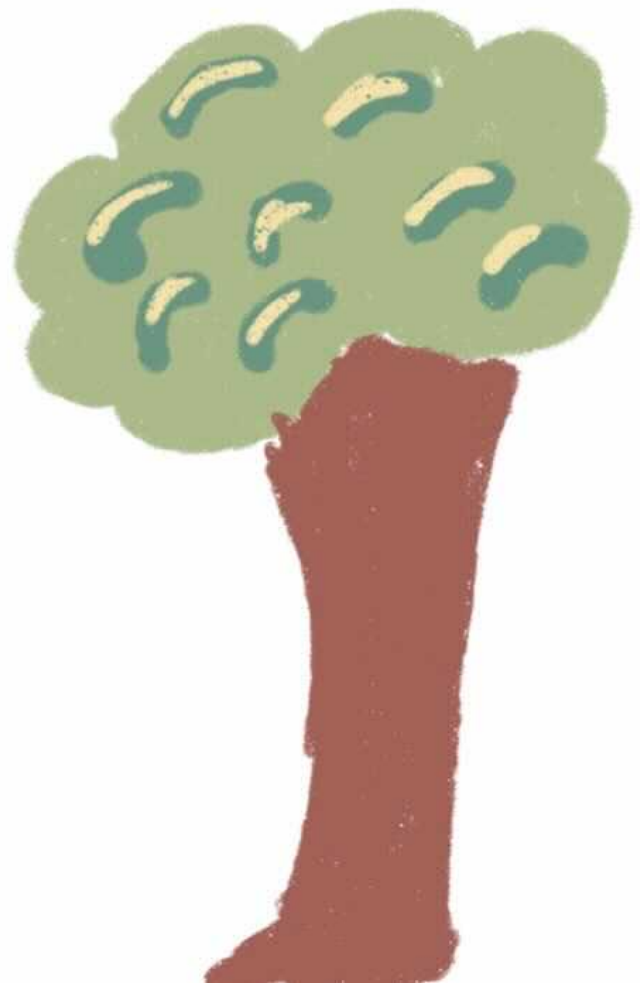

Sarah

Through buildings tall and green,
I was walking through the woods,
Where the monkeys were so mean

Then I saw a pampered cow,
Spoilt milk was squeezed out,
She said in disbelief, "How?"

Crazy things kept coming,
Animals which were in the woods
Were whistling and humming.

Through trees green and tall,
I never saw such a weird woods,
Which was so small.

Yumi

Through buildings tall and green,
I was walking through the woods,
Where the monkeys were so mean.

What were they doing there?
They were eating a banana,
And one looked like a bear.

We looked at one another,
He ignored me and ran away,
I followed and saw two walk together.

I heard a sound and everything was gone,
"Wake up! You'll be late!" said Mum
I realized it was a dream

Louie

Through buildings tall and green,
I was walking through the woods,
Where the monkeys were so mean.

They jumped and jumped and jumped on my bag,
I yelled at them, but they didn't care,
"Get away from me!" I begged.

Then all the buildings moved,
I knew they were getting angry,
I heard a voice behind me, "Moo!"

I woke up suddenly on my bed,
The alarm clock stated to yell again,
I thought this dream was bad

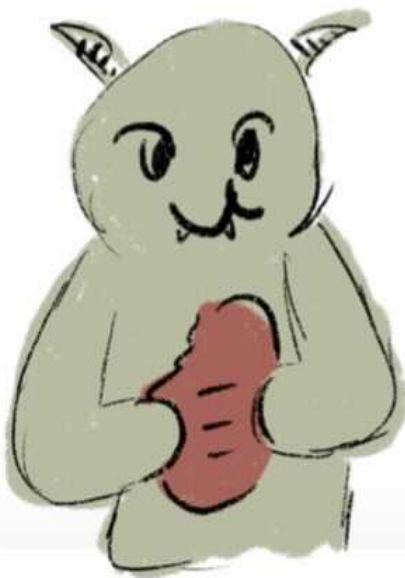

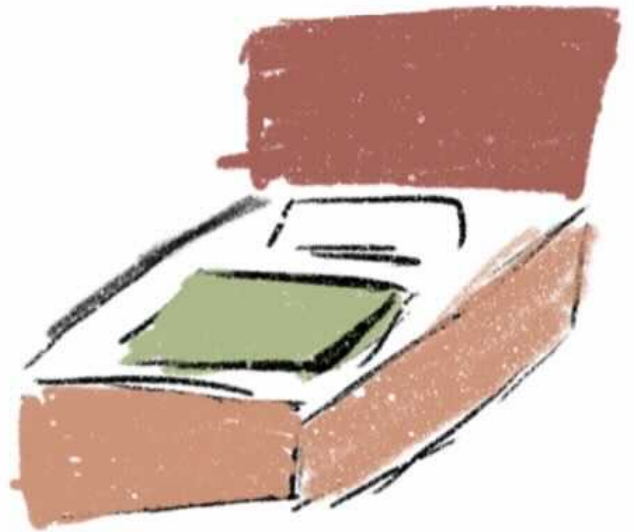

Stephanie

Through buildings tall and green,
I was walking through the woods,
Where the monkeys were so mean.

I walked and walked and walked deeper,
And saw a girl with a bed,
She said her job was bed keeper.

Monsters were sleeping in the bed,
With petrifying eyes and ears,
Sleeping and eating bread.

I was scared and ran away,
Through the trees to my home,
And I woke up to a new day

Sounds of ...

-Sounds of the Night-

I always hear the sounds of night,

What sounds can I hear?

My dad in the shower, water – Splash!

“Crunch!” I hear in my other ear,

My brother eating, what a fright,

He always cries when he wants food,

He chews his way through meat and mash,

The sounds create the evening mood.

Sounds of Basketball

Ben loves playing basketball,
But he doesn't have a ball at all,
He has to borrow day by day,
He'd better buy a basketball.

Buying a ball is pretty pricy,
He breaks his piggy bank in two,
No more money in the box,
Maybe give up, that's what he'll do.

-Sounds of Morning-

Tweet! Tweet! I have to tackle the trail again,

Leaves rustle, eggs sizzle, the morning's approached

My clock rings and so I know,

Let's go and eat the egg Mum's poached.

Rapping from the other side of my door,

Oh! I'm already late for school,

I run, I rush, I dash,

I reach my school on time – Cool!
